A Comparison of Rule 9B-72.010, and the Draft Rule 9B-72.010 for the Definition of Structural Component

Rule 9B72.010 Definitions.
(28) Structural component means any part or assembly of a building or structure used or intended to support or shelter any use or occupancy, and which affects the safety of such building or structure or which supports any dead or designed live load and the removal of which part, material or assembly could cause, or be expected to cause, all or any portion to collapse or to fail, or both.

Proposed Draft Rule 9B72.010 Definitions:
(28) Structural component means any part or assembly of a buildings that comprise the envelope or structural frame or structure used or intended to support or shelter any use or occupancy, and which affects the safety of such building or structure or which supports any dead or designed live load and the removal of which part, material or assembly could cause, or be expected to cause, all or any portion to collapse or to fail, or both.
